## Biography of Arthur G. Hansen

Arthur Gene Hansen was born in Sturgeon Bay, Wisconsin, on Feb. 28, 1925. He earned his bachelor's degree in electrical engineering from Purdue University in 1946 and his master's degree in mathematics in 1948, also from Purdue. During this time, he also served in the United States Marine Corps Reserve as a Second Lieutenant and was a member of the Phi Gamma Delta fraternity. Hansen received his doctorate in mathematics from Case Institute of Technology in 1958. Hansen also held several honorary degrees.

Before joining Purdue as its 8<sup>th</sup> president, Hansen was a professor at the University of Michigan and then moved on to Georgia Institute of Technology, where he served as its Dean of Engineering and then president from 1969 to 1971.

He accepted the position of president at Purdue University from 1971 to 1982, the first Purdue alumnus to do so. Hansen focused much of his energies on developing relationships with students and building the initial foundation for the university's fundraising efforts. In 1972 he founded the President's Council, an organization of those who financially support the university.

Under Hansen's administration, enrollment increased from 26,000 to more than 32,000, and new buildings were constructed for agriculture, psychology, life sciences and athletics. Hansen also supported the establishment of Purdue's first Black Cultural Center and the university's first retirees association in 1976.

A decade after he left Purdue, when asked for the highlight of his Purdue presidency, Hansen responded quickly, "When I bought that supercomputer for Michael."

It was Purdue's first supercomputer and one of only a handful the country. Purdue professor Michael Rossmann went on to use the supercomputer to become the first to map the structure of the common cold virus.

"Art Hansen loved students and loved Purdue," said Purdue's current president, France A. Córdoba. "An engineer by discipline, he also supported the arts, knowing that they form the heart of a great institution."

Purdue honored him by naming the Arthur G. Hansen Life Sciences Research Building in his honor. He, in turn, honored Purdue and his wife, Nancy Tucker Hansen, in 2002 by giving \$1.8 million to build a proscenium theater, which now bears her name. The theater is part of Yue-Kong Pao Hall, home to Purdue's visual and performing arts.

Hansen left Purdue in 1982 to become chancellor of the Texas A&M University system. In 1982 Hansen left this post to become the director of research of the Hudson Institute and an educational consultant until his retirement. After retirement,

he made his home in Zionsville, Indiana, and then in Fort Myers, Florida, where he died on July 5, 2010.

Special Honors Received: Leather Medal recipient, Sigma Delta Chi; Distinguished Service Medal, Department of Defense (1985); Indiana Engineer of the Year (1979); Purdue Distinguished Alumnus (1979); Atlanta Engineer of the Year (1970); Who's Who in America; American Men and Women of Science; Centennial Medallion, American Society for Engineering Education; elected to The Indiana Academy (1998)

Accomplishments: Author, "Similarity Analyses of Boundary Value Problems in Engineering" and "Fluid Mechanics"; Board of Directors, City University of New York Research Foundation (1994-1997); Chairman, Indiana Commission for Higher Education (1994-); Chairman, Texas Committee Employer Support of Guard and Reserve, Texas Scientific and Technology Council; Member, Academy Advancement Board, U.S. Naval Academy (1975-1979); Trustee, National Fund for Minority Engineering Students (1980-1981); Board of Visitors, Air Force Institute of Technology (1987-1989); Chairman, Board of Visitors, Air University (1974-1977); Fellow American Association for the Advancement of Science; National Advancement of Education, Gas Research Institute (Chairman of Advancement Council 1976-1979); Sigma Xi; Eta Kappa Nu; Pi Tau Sigma; Tau Beta Pi; Phi Kappa Phi; Omicron Delta Kappa; Phi Eta Sigma; Kappa Kappa Psi; Advisory Board, U.S. Department of Energy; Indiana Governor's Roundtable for K-12 Education; Chairman, Indianapolis Symphony Board; Georgia Ocean Science Center of the Atlantic; Advisory Council, Skidway Oceanographic Institute

## **Collection Description**

### **Scope**

The Arthur G. Hansen papers are composed of a comprehensive collection of speeches and addresses written and given by Arthur G. Hansen during his tenure as president of Georgia Institute of Technology, Purdue University, and Texas A&M University. The papers also contain numerous articles and reprints, papers, publications and technical reports written by Hansen.

### **Arrangement**

The papers have been retained and arranged as received.

### **Descriptive Rules**

Describing Archives: A Content Standard

### **Processing Information**

All materials have been housed in acid-free folders, and acid-free manuscript boxes.

### **Additions**

Items received from Jeanne Norberg, University News Service, July 22, 2010. Items include photographs of Arthur G. Hansen and a DVD of WLFI-TV News Channel 18: "Funeral of Purdue University President Arthur G. Hansen." Addendum also includes photographs and press releases for Nancy Tucker Hansen's papers.

## DETAILED DESCRIPTION OF THE COLLECTION

### Publications, 1950-1979

#### Box 1

##### Folder

1. "Fluidics and Its Potential for Industry," by Arthur G. Hansen. *Home Appliance Builder*, June 1967, pp. 20-22.
2. "Possible Similarity Solutions of the Laminar. Incompressible, Boundary-Layer Equations," by Arthur G. Hansen. *ASME Paper No. 57-A-'79*. (2 copies)
3. "The Design of Water-Jet Pumps: Part 1—Experimental Determination of Optimum Design Parameters," by Arthur G. Hansen and Roger Kinnavy. *The American Society of Mechanical Engineers Paper no. 65-WA/FE-31*.
4. "Analysis of Particle Motions for a Class of Three Dimensional Incompressible Laminar Boundary Layers," by Arthur G. Hansen and Howard Z. Herzig. *National Advisory Committee for Aeronautics Technical Note: Lewis Flight Propulsion Laboratory Cleveland, Ohio. NACA TN 3840*.
5. "Laminar Boundary Layer Over Flat Plate in a Flow Having Circular Streamlines," by Arthur G. Hansen. *National Advisory Committee for Aeronautics Technical Note: Lewis Flight Propulsion Laboratory Cleveland, Ohio. NACA TN 3840*.
6. "A Numerical Procedure for Designing Cascade Blades with Prescribed Velocity Distributions in Incompressible Potential flow," by Arthur G. Hansen and Peggy L. Yohner. *National Advisory Committee for Aeronautics Technical Note: Lewis Flight Propulsion Laboratory Cleveland, Ohio. NACA TN 2101. June 1950*.
7. "Group-theoretic Classification of the One-Dimensional Diffusion Equation in Rectangular Coordinates," by Arthur G. Hansen, Douglas E. Abbott and Tsung Yen Na. (first draft of report, supported by NASA contract NAS8-20065)
8. "Group-theoretic Analysis of the conditions for Similarity of the Hemholtz Equation in a Class of Coordinate Systems," by Arthur G. Hansen, Douglas E. Abbott and Tsung Yen Na. (supported by NASA contract NAS8-20065)
9. "Generalized Control Volume Analyses with Application to the Basic Laws of Mechanics and Thermodynamics," by Arthur G. Hansen. Reprint from *Bulletin of Mechanical Engineering Education*, Vol. 4, pp. 161-668, 1965.
10. "Lecture on Potential Flow," by Arthur G. Hansen.
11. "Similarity Solutions of Laminar. Incompressible Boundary Layer Equations of Non-Newtonian Fluids," by A. G. Hansen and T. Y. Na. *ASME Paper No. 67-WA/FE-2*. (6 copies)
12. "Similarity Analysis of Differential Equations by Lie Group," by Tsung Y. Na and Arthur G. Hansen. *Journal of the Franklin Institute* Vol. 292 No. 6. December 1961. pp. 471.489.
13. A Method for Locating the Position of a Normal shock in a converging-

Diverging Nozzle,” by J. A. Sullivan and A. g. Hansen. *Bulletin of Mechanical Engineering Education*, Vol. 3 No. 2, April-June 1964. pp. 119-122. (copy of reprint also)

14. “The Purpose of These Notes is to Present the Derivation and Analysis of a Very Famous Equation from Fluid Mechanics Named After Its Discoverer, Daniel Bernoulli . . .,” by Arthur G. Hansen, March 19, 1979.
15. Pages of lecture notes with overheads and questions.
16. Letters from The Institute of Appliance Manufacturers dated January 16, 1967 and February 11, 1967 and overhead for a lecture.
17. “Shorter Communication: Possible Similarity Solutions of the Laminar Natural Convection Flow of Non-Newtonian Fluids,” by Tsung Yen Na and Arthur G. Hansen. Reprint from *International Journal of Heat and Mass Transfer*, Vol. 9, pp. 261-262, 1966.
18. “Compressible Flow Relationships for Adiabatic Flow through Converging-Diverging Nozzles,” by Tsung Yen Na and Arthur G. Hansen. Reprint from *Bulletin of Mechanical Engineering Education*, Vol. 5, pp. 241-249, 1966.
19. “Generalized Control Volume Analyses with Application to the Basic Laws of Mechanics and Thermodynamics,” by Arthur G. Hansen. Reprint from *Bulletin of Mechanical Engineering Education*, Vol. 4, pp. 161-168, 1965.
20. “A Study of the Performance of Staged-Jet Pumps,” by Monir Sidhom and Arthur G. Hansen. *The American Society of Mechanical Engineers*, No. 66-WA/FE-37.
21. “Similarity Analysis of the Flow Near an Oscillating Plate,” by Tsung Yen Na and Arthur G. Hansen. *The American Society of Mechanical Engineers*, no. 65-FE-21.
22. “Experimental Study of Switching in a Bistable Fluid Amplifier,” by s. D. Savkar, A. G. Hansen and r. B. Keller. *The American Society of Mechanical Engineers*, No. 67-WA/FE-37.
23. “An Experimental Study of MHD Flow Between Concentric Tubes,” by Robert N. Caddell and Arthur G. Hansen. *The American Society of Mechanical Engineers*, No. 66-WA/FE-35.
24. “A Jet Pump Cavitation Parameter Based on NPSH,” by A. G. Hansen and T. Y Na. *The American Society of Mechanical Engineers*, No. 68-WA/FE-42.
25. “The Design of Water-Jet Pumps: Part 1—Experimental Determination of Optimum Design Parameters,” by Arthur G. Hansen and Roger Kinnavy. *The American Society of Mechanical Engineers*, No. 65-WA/FE-31.
26. “The Design of Water-Jet Pumps: Part 2—Jet-Pump System Characteristics,” by Arthur G. Hansen and Roger Kinnavy. *The American Society of Mechanical Engineers*, No. 65-WA/FE-32.
27. “Optimization of Jet Pump Systems,” by A. G. Hansen and T. Y. Na. *The American Society of Mechanical Engineers*, No. 66-FE-4.
28. “Some Numerical Solutions of Similarity Equations for Three-Dimensional Laminar Incompressible Boundary-Layer Flows,” by Peggy L. Yohner and Arthur G. Hansen. *National Advisory Committee for Aeronautics Technical*

Note: Lewis Flight Propulsion Laboratory, Cleveland, Ohio. September 1958. NACA TN 4370.

29. "Experimental and Analytical Investigation of Secondary Flows in Ducts," by Howard Z. Herzig and Arthur G. Hansen. *Institute of the Aeronautical Sciences* No. 539, 1956.
30. "Similarity Solutions of a Class of Laminar Three-Dimensional Boundary Layer Equations of Power Law Fluids," by Tsung Yen Na and Arthur G. Hansen. Reprint from *International Journal of Non-Linear Mechanics*. Vol. 2, pp. 373-385, 1967.
31. "Jet Pump Cavitation," by R. G. Cunningham, A. G. Hansen and T. Y. Na. *The American Society of Mechanical Engineers*, No.69-WA/FE-29.
32. "An Analysis of the Requirements for Obtaining Similarity Solutions of the Two-Dimensional, Unsteady, Laminar Boundary-Layer Equations," undated
33. "Some Remarks on Similarity Solutions for the Energy Equation," undated
34. "Similarity Analysis of Partial Differential Equations by the Multiparameter Lie Group," by Tsung-Yen Na and Arthur G. Hansen, The University of Michigan, Dearborn Campus Division of Engineering Thermal Engineering Laboratory Technical Report ORA Project 07457, August 1969 [2 copies]
35. "An Analyses of Partial Differential Equations," by Tsung Yen Na, Douglas E. Abbott and Arthur G. Hansen. The University of Michigan-Dearborn Campus, Division of Engineering, Thermal Engineering Laboratory Technical Report. ORA Project 07457. March 1967.
36. "General Group-Theoretic Transformation from Boundary Value to Initial Value Problems," by Tsung Yen Na and Arthur G. Hansen. The University of Michigan-Dearborn Campus, Division of Engineering Thermal Engineering Laboratory Technical Report. ORA Project 07457. February 1968.
